## Collaborative tools to support your activities in the workplace

**Social Bookmarking** - allows you and your membership to share, store, organize, search, tag and manage web pages you would like to be able to revisit in the future or share with others.

JISC Mail is a collaborative solution based on email and web technologies. It enables you to create, build and manage your own opt-in groups for collaborative debate, delivering newsletters, making announcements and distributing promotional messages.

**Surveys** – Enables you to create professional online surveys via an intuitive survey building tool. You can poll your group membership on any subject you wish, collecting the results in real-time and making them available to download in a number of formats.

**Calendars** - online meeting and event scheduler to find the best date quickly and easily. This web based tool saves time and money by avoiding telephone conversations or too many email exchanges. Simply send out your invitations with several proposed dates, collect the availability and review the results table to identify the most suitable date.

**Reporting** - produce membership details and activity usage at the click of a button.

**Files Area** - upload any type of file and store it securely on our servers. Available to access from anywhere via a web browser. Share the files with your colleagues and avoid clogging up your email system by sending a simple link instead of a document.

**Discussions** - is a virtual meeting room where two or more people can conduct a text-based discussion in real-time. Conversations can be downloaded and saved.

### CUSTOMISABLE

When you set up a group, you have the choice of name which will form part of your group's email address. Your group will automatically (unless you specify otherwise) have an online group homepage which is fully customisable by yourself or by our helpline. Each homepage displays previous conversations.

### WEB HELP

Our website has extensive help files, information and news: <http://www.jiscmail.ac.uk>.

### CUSTOMER SERVICE

We have an excellent customer service which can be contacted via email or phone. This is staffed from Monday to Friday during office hours - 9am – 5pm and is automated outside of this time to receive enquiries which will be dealt with upon our return.
